

PROYECTOS TÉCNICOS ORIENTE C.A.

ENGINEERING THAT DRIVES SOLUTIONS

CAPABILITY STATEMENT · ENGINEERING · PROCUREMENT · CONSTRUCTION

We deliver integrated engineering, procurement and construction solutions for the oil industry and related sectors, with high standards of quality, safety and efficiency.

25 years

delivering projects in Eastern Venezuela, since 2001.

40+ years

of industry experience from our founder and director.

149 km

of pipeline laid in our documented projects.

6,880 m²

own yard for equipment and materials.

ONE CONTRACTOR, FROM ENGINEERING TO START-UP.

ENGINEERING

Multidisciplinary project engineering, planning and control, and land surveying.

PROCUREMENT

Local and international procurement of equipment and materials for the oil industry, with direct access to manufacturers.

CONSTRUCTION

Civil, mechanical, electrical and instrumentation works: oil and gas pipelines, flowlines, stations and tanks.

MAINTENANCE

Major maintenance of trunk lines, laterals and production facilities, with our own crews and equipment.

WORK FOR THE LEADING OPERATORS IN EASTERN VENEZUELA.

2012	Mechanical facilities for well construction	PDVSA Petróleo	Heavy and Extra-heavy areas · San Tomé District · Groups A and B
2012	Pipe laying for production handling	PDVSA Petróleo	72.7 km · Ø 2" to 20" · Heavy Oil Unit stations
2011	Flowlines, Light and Heavy Oil Units	PDVSA Petróleo	13.1 km Ø 20" + 3.2 km Ø 3" and 6" · South District
2010	Budare-2 – P.T.O. oil pipeline, Section 1 (Package A)	Petrolera Indovenezolana	45 km · Ø 20"
2010	Budare-2 – P.T.O. oil pipeline, Sections 2–4 (Package B)	Petrolera Indovenezolana	15 km · Ø 20"
2008	Flowlines and surface facilities	PDVSA Petróleo	Heavy and extra-heavy crude wells · Diluent facilities
2006	Mechanical connections and major maintenance	PDVSA Petróleo	South District trunk lines and laterals
2005	Salt-water injection and treatment plant	PDVSA Gas	Refurbishment · Anaco
2004	South District mechanical facilities	PDVSA Petróleo	San Tomé
2002	MELEM-1 – MED-20 oil pipeline	PDVSA Petróleo	Ø 16"

OUR OWN EQUIPMENT, YARD AND WORKSHOP. READY TO MOBILISE.

Equipment yard 6,880 m² of reinforced-concrete paving.

Workshop 600 m² shed with overhead crane, pit, office and storage.

Offices 700 m² on two floors: engineering, management and boardroom.

Fuel Underground tanks with diesel and gasoline dispensers.
